

UA NetID+ STEP-BY-STEP INSTRUCTIONS: Logging into UA NetID+ Using Cell Phone Text Messaging

After you are enrolled in NetID+, you will follow this procedure for logging into applications secured by NetID+.

1. You will be redirected to the **UA NetID WebAuth** login page, as usual. Enter your **UA NetID** and **password** and click **Login**.

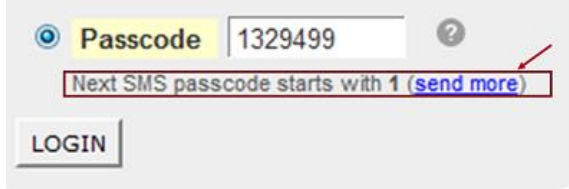

2. You will then see the following screen for your second factor of authentication.

- a. There is a **dropdown list** that you can use if you have more than one device registered. In this case, we will enter a passcode received via text message on a cell phone.
- b. Click the **Radio Button** by **Passcode**, and enter a **Passcode** that has been sent to your phone via text message. These codes are sent 10 at a time, and you will be prompted with the number of the next code you should use.
- c. If you would like to save your credentials for the current computer you are using, click the **Check Box** by **Remember this device for 30 days**.
- d. Click **Login**.

*NOTE: If you need more passcodes sent to your phone, click **send more**. You will receive a text message with 10 more passcodes.*

A screenshot of a login form. At the top left is a radio button selected next to the label "Passcode". To its right is a text input field containing "1329499". Further right is a question mark icon. Below these elements is a message: "Next SMS passcode starts with 1 (send more)", where "send more" is a blue hyperlink. At the bottom left of the form is a "LOGIN" button.

3. The following will appear on your computer screen, indicating that you have logged in successfully with NetID+:

A screenshot of a "NetID+ Required" login screen. At the top left is a green "SUCCESS" badge. Below it is a green banner with the text "Success! Logging you in...". Underneath is a dropdown menu showing "GCMC_NCCN_123-1". There are three radio buttons: "Duo Push", "Phone Call", and "Passcode", with "Passcode" selected. The "Passcode" field contains "2335541". Below the field is the text "Next SMS passcode starts with 2 (send more)". At the bottom is a checked checkbox labeled "Remember this device for 30 days" and a "LOGIN" button.

4. You will now be directed back to the application for which you entered your credentials.
